The Frankfurt School of Finance & Management is one of Germany's leading business schools. It advances sustainable international business practices in finance and management through education, research, training and advisory services.

The Frankfurt School – UNEP miCollaborating Centre for Climate & Sustainable Energy Finance is a strategic cooperation with the United Nations Environment Programme (UNEP). The Centre is seeking an experienced individual to fill a position as

Researcher / Policy Analyst (m/f)

Essentials: Advanced university degree (ideally a PhD) in Economics, Finance or Political Sciences. Experience and particular interest in advisory projects – research – policy development interfaces. Ease in dealing with governments, private sector and international financial institutions. Strong communication skills, a positive attitude and an out-going personality. Fluency in English essential; advanced French and/or Spanish as well as basic German desirable.

We offer a stimulating environment and all the opportunities of a dynamic private business school. Our team is international, experienced and passionate about its mission – we want to make a difference in sustainable energy and climate finance. For more information on our Centre and work see http://fs-unep-centre.org/ and on Frankfurt School see www.frankfurt-school.de

For enquiries about the position, please contact Dr. Karlheinz Knickel, Head of Centre,
Phone: +49 (0)69 154008-859, e-mail: k.knickel@fs.de

Interested?
